1. The status of the new barracks at Floesti as of 10 August 1953 was as follows:

Building 1: bare brickwork ready, floors being put in.
 Building 2: ground floor about complete; work on upper story.
 Building 3: plaster work complete.
 Building 4: electric installations and stucco work in all stories.
 Building 5: ready except for the laying of the floors. Work temporarily discontinued due to the non-delivery of planks.
 Building 6: brickwork complete; plastering going on on all floors.

2. It is now established beyond doubt that this is a barracks and not an industrial installation. A man in the Floesti area command says that when the barracks is complete, probably in October, it will be occupied by an armored division.
